**DETAILED ACTION**

***Allowable Subject Matter***

Claims 1, 4-10 and 16-27 allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record, either singularly or in combination, does not suggest the combination of limitations including:

A semiconductor light emitting device comprising:

a substrate;

a plurality of semiconductor blue-light emitting elements each having an epitaxial structure on the substrate;

a plurality of semiconductor red-light emitting elements that have been mounted on an electrically conductive pattern provided on the substrate; and

a phosphor that covers the semiconductor blue-light emitting elements and the semiconductor red-light emitting elements, wherein

each semiconductor red-light emitting element has been flip-chip mounted via at least one bump,

a vertical height of each semiconductor red-light emitting element from a main surface of the substrate is greater than a vertical height of each semiconductor blue-light emitting element from the main surface of the substrate, and

the semiconductor red-light emitting elements and the semiconductor blue-light emitting elements are arranged in a matrix, in such a manner that each semiconductor red-light emitting element is adjacent to semiconductor blue-light emitting elements in

both row and column directions, except for some of the semiconductor blue-light emitting elements which are at corners of the substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
